

YOUR **ECO-RESPONSIBLE** GUIDE

Committed to its sustainable development policy and conscious of the footprint of its activities on the environment, Antipolis Convention Centre has adapted its management systems to take into account environmental and societal impacts, respecting the requirements to be met under its ISO 20121 accreditation. We ask you to adopt some simple gestures that, combined with those made by other organizers, will have a real impact on our planet's ecosystem!

REDUCE THE QUANTITY OF **MATERIALS USED**

- **Opt for digital communication rather** than printing out material.
- **Opt for recyclable materials**, or anticipate reusing your stands, furniture, decorative elements, cover, badges, bags and other accessories.
- **Limit the amount of carpeting and decoration you use**, sticking to the bare minimum.

REDUCE THE QUANTITY OF **WASTE PRODUCED**

- **Order carefully calculated quantities** from caterers to avoid wastage.
- **Encourage your participants to bring their own water bottles** and make use of the drinking water points available in our reception areas (noting that handing out plastic bottles here is forbidden).
- **Opt for porcelain crockery**, rather than disposable alternatives, for coffee breaks and cocktail events.*
- **Encourage members of the public** to sort their waste during the event.
- **Limit the materials you bring to the venue** to what is strictly necessary for the exhibition (re packaging, boxes, palettes, etc).

OPT FOR ENVIRONMENTALLY **FRIENDLY TRANSPORT**

- **Spread the word on how Antibes TGV high-speed railway station is just 10 mins away via the regional TER railway station** at Juan-les-Pins, the latter a mere 500m from the Antibes Convention Centre (the two stations are 1 stop apart, journey time between them 2 mins).
- **Encourage your participants to car-share** to get to the convention centre.
- **Let people know that there's direct access to Antibes Palais des Congrès from Nice Côte d'Azur Airport** using either the tramway or the TER regional railway station (c.40 mins door to door).

Thank you for your cooperation!
